PERSONAL INFORMATION

A Passionate Software and AI developer with some experience in project. Fast Learner who thrives in dynamic environment and and rapidly adapts to new technological shifts.

EDUCATION

Binus University
Computer Science
Class of 2028
3.98/4.00 GPA

ACHIEVEMENTS AND CERTIFICATION

- Dean's List | Bina Nusantara University - 2025
- Microsoft Certified: Azure AI Fundamentals (AI-900) | Microsoft - 2025
- 2nd Place Winner | International Morals and Ethics Contest (IMEC) - 2023

EXPERIENCE

Mentorship Coordinator | Scholarship Mentor Program, Student Advisory & Support Center (SASC)
September, 2025 - January, 2026

- Learn together about computer science concept with 3 students
- Adapt teaching methods to meet diverse learning styles

Activist | Himpunan Mahasiswa Teknik Informatika (HIMTI)
February, 2024 - January, 2026

- Event Coordinator ("Bincang Karir Bersama BCA"): Developed the comprehensive event rundown, authored the MC script, and managed ushers to ensure seamless end-to-end event flow.
- Technical Operator ("From Gamer to Hacker"): Managed virtual event logistics via Zoom, overseeing audio-visual controls and troubleshooting technical issues to guarantee a smooth broadcast.
- Designed and developed beginner-friendly C programming problem statements to help peers and beginner coders practice foundational concepts (such as conditionals and loops).
- Track two volunteer at Codeavour international event: Facilitated smooth competition rounds by managing arena resets for robot trials and assisting judges with administrative and operational tasks.

Mentorship Coordinator | Binus Student Learning Community (BSLC)
February 2026 - June, 2026

- Tutor 2 junior students in foundational Computer Science concepts especially in data structures such as Linked List, Binary Search Tree, etc.

Sigma Lab | S class of Computer Science Binus Alam Sutera
February, 2025 - January, 2026

- Learn the basics in software engineering such as front end, and back end.
- Make the project application based on learning material.

PROJECTS

Koinku | Docker, Express.js, Tailwind CSS, React.js, PostgreSQL, Typescript

- Designed and implemented the interactive goal page frontend using React.js and Tailwind CSS, focusing on user experience and responsive design.
- Developed the backend wallet model using Express.js and PostgreSQL.

Shipdeckk | HTML, CSS, JS

- Designed and implemented the all page frontend using HTML, CSS, and JS. Focusing on user experience and responsive design.

My Movie | Program Design

- Conducted the interview with binusian regarding what we were going to build in order to indentify functional requirement and non functional requirement.
- Made use case diagram, IPO chart, activity diagram, and pseudo code (the basic logic of application).

Sales Data | Database Technology, My SQL

- Migrated the sales data activity record from excel to database (MySQL).
- Build the Entity Relational Diagram (ERD) model, and cleaned it into 3 NF.
- Cleaned the excel data like removed the redundancy, and null values.
- Inserted all the data from excel to database (MySQL).
- Made the query based on request.

Genshin Import | Flutter, Express Js, MySql

- Designed and implemented the buy page, remove page, update page, and admin page using flutter, and connected to backend.
- Made all backend functionality CRUD using Express JS, and MySql.

Moodtune | Flutter, Express Js, SQLite, Groq API

- Designed all backend functionality CRUD using Express JS, and Sqlite.
- Helped the frontend to connect to backend, and ensured the application worked properly.
- Called the Groq API to provide music based on mood of user.

SplitIt | Nest JS, PostgreSQL, Groq API, React.js, Tailwind CSS

- Designed and implemented the home page, friend page, login page, sign up page using React.js and Tailwind CSS.
- Ensured the Groq API worked properly to split the bill.

W3Speedrun | Nest JS, Prisma, MySql, Microservice, Typescript

- Designed and implemented all the backend functionality CRUD using Nest JS, Prisma, and MySql using Microservice architecture.
